FROM: Pamela Grubaugh-Littig, Reclamation Engineer *agl*

RE: Reclamation Surety, Vipont Mines, Ltd., Vipont Mine,
ACT/003/005, Box Elder County, Utah

I spoke with Mr. Tom Miller in a telephone conversation on May 15, 1985. The reclamation cost estimate was discussed because Mr. Miller had questions about what the \$9,477.00 represented. I explained that is represented a "low-side" estimate of the present disturbance. The costs represent the cost of the state to do the work, not the operator costs.

Mr. Miller said that he would bring an automatically renewable Certificate of Deposit before noon on Monday, May 20, 1985.
